CSE 578: Data Visualization

Progress Report

This is the first checkpoint of your team project.

Directions

As a team, write and submit a 1-2 page progress report for the course project. Make sure to include the date and the names of the individual members on your team.

In your report, please describe your progress and how each member is contributing to the project.

A few reminders about the course project:
- You will need to create visualizations for the UVW executives in order to analyze the data and propose which factors could be used to determine an individual's income.
- Document your design process in preparation for the Systems Documentation Report, which is due at the end of Unit 6.

Submission Directions for Checkpoint Deliverables

Upload your Progress Report file in the Unit 5 submission space. Upload one report per group. Include each group member's name on the report.

Review Criteria

This is an ungraded assignment, but it will be used to inform the course staff that your team is progressing appropriately.
